

# Gaslicht-Kultur e.V.

Sponsoring association for the cultural  
assets of Berlin Gas Streetlighting

Kulturgut Berliner Gas-Strassenbeleuchtung

## What are we going to show you tonight ?

Come and visit with us some of the most beautiful gas-lit streets and squares of Berlin! Experience Berlin's world-wide unique gas lighting from the top deck of a double-decker bus once from a very different perspective.

Our **gaslight-tour** starts at 21:00 p.m. every 30 minutes from the shuttle stop at Schloss Charlottenburg (Route 6), duration approximately 30 minutes. Learn more about Berlin's "glittering treasures of the night" in an entertaining way. We will inform you about

- the history of gas lighting in Berlin
- Berlin's characteristic gaslamp ensembles and their effects on the Berlin cityscape
- functionality and advantages of modern gas-lanterns
- the various types of gaslamps in Berlin, how to identify them and much more ...

## About us

*Gaslicht-Kultur* is an accredited non-profit cultural association. Since 1985 we are engaged with the gas lighting and its preservation in Berlin. We participate in cultural events like Museums Night or Open Memorial Day and we are co-winner of "Be Berlin-campaign".

## Our aims

We lobby for concepts of a careful urban renewal: an appropriate co-existence of electric street lighting on the one hand and the gas lighting as a typical part of Berlin street culture on the other.
